

# POLYURETHANE PALLET WHEELS

**APPLICATIONS:**  
Pallet jacks, electric "walkie"  
and "ride" units.

## Standard Features

- Sizes available for all brands
- Special compounds solve even the most severe application problems

## Special Compounds Available

### EZ (Suffix EZ)

- **85A Hardness** - Reduces vibration, noise, operator fatigue and improves traction
- **406 Ply Die C Tear Strength** - Reduces chunking due to dock plates and floor joints
- **45% Rebound** - Reduces flat spots, rolling resistance and ampere draw

### XL (Suffix XL)

- **97A Hardness** - Low rolling resistance, 20% greater carrying capacity
- **6,100 PSI Tensile** - Less flexing, reduces heat build-up and bond failure

| Part Number   | Size (Dia. x Width) Inches | To Replace                | Part Number           | Size (Dia. x Width) Inches | To Replace         |
